

Calculating Higher Education Loan Program in conjunction with Student Financial Supplement Scheme

The coefficients in this table should be used in conjunction with the *Statement of formulas of calculating amounts to be withheld* (NAT 1004).

FOR PAYMENTS MADE ON OR AFTER 1 JULY 2010.

This document is a withholding schedule made by the Commissioner of Taxation in accordance with sections 15-25 and 15-30 of Schedule 1 to the *Taxation Administration Act 1953*. It applies to withholding payments covered by Subdivisions 12-B (except sections 12-50 and 12-55), 12-C (except sections 12-85 and 12-90) and 12-D of Schedule 1.

For more information:

- visit www.ato.gov.au
- use the PAYG tax withheld calculator on our website to calculate tax to withhold from payments made to payees.

WHO SHOULD USE THIS SCHEDULE?

This schedule has been produced for payers and registered software suppliers developing payroll software packages.

Formulas and coefficients are used for calculating weekly withholding amounts for payees who have **both** an accumulated Higher Education Loan Program (HELP) debt and an accumulated Financial Supplement (FS) debt.

FORMULAS FOR CALCULATING THE HELP AND SFSS COMPONENTS

Statements of formulas for separately calculating the Student Financial Supplement Scheme (SFSS) and HELP components, together with examples and sample data, can be found in:

- *PAYG withholding – Statement of formulas for calculating Student Financial Supplement Scheme (SFSS) component* (NAT 3305), and
- *PAYG withholding – Statement of formulas for calculating Higher Education Loan Program (HELP) component* (NAT 2335).

FORTNIGHTLY, MONTHLY OR QUARTERLY WITHHOLDING AMOUNTS

First calculate the weekly equivalent of fortnightly, monthly or quarterly earnings. Where paid:

- fortnightly – divide the sum of the fortnightly earnings and the amount of any allowances subject to withholding by two. Ignore any cents in the result and then add 99 cents
- monthly – obtain the sum of the monthly earnings and the amount of any allowance subject to withholding (if the result is an amount ending in 33 cents, add one cent). Multiply this amount by three and then divide by 13. Ignore any cents in the result and then add 99 cents
- quarterly – divide the sum of the quarterly earnings and the amount of any allowances subject to withholding by 13. Ignore any cents in the result and then add 99 cents.

Then calculate fortnightly, monthly or quarterly withholding amounts as follows:

- fortnightly – determine the rounded weekly withholding amount applicable to the weekly equivalent of earnings before any adjustment for tax offsets. Multiply this amount by two
- monthly – determine the rounded weekly withholding amount applicable to the weekly equivalent of earnings before any adjustment for tax offsets. Multiply this amount by 13, divide the product by three and round the result to the nearest dollar, or
- quarterly – determine the rounded weekly withholding amount applicable to the weekly equivalent of earnings before any adjustment for tax offsets. Multiply this amount by 13.

WHEN SHOULD THE HELP COMPONENT BE CALCULATED?

You will need to calculate the HELP component when a payee has provided you with a *Tax file number declaration* or *Withholding declaration* and has:

- answered 'YES' to the question 'Do you have an accumulated Higher Education Loan Program (HELP) debt?'
- **not** applied for an exemption or reduction of the Medicare levy on a *Medicare levy variation declaration* due to low family income
- claimed the tax-free threshold with earnings of:
 - \$863 or more if paid weekly
 - \$1,726 or more if paid fortnightly
 - \$3,739.67 or more if paid monthly, or
 - \$11,219 or more if paid quarterly.

Where a payee has not claimed the tax-free threshold, the HELP component is calculated on earnings of:

- \$546 or more if paid weekly
- \$1,092 or more if paid fortnightly
- \$2,366 or more if paid monthly, or
- \$7,098 or more if paid quarterly.

WHEN SHOULD THE SFSS COMPONENT BE CALCULATED?

You will need to calculate the SFSS component when a payee has provided you with a *Tax file number declaration* or *Withholding declaration* and has:

- answered 'YES' to the question 'Do you have an accumulated Financial Supplement debt?'
- **not** applied, for an exemption or reduction of the Medicare levy on a *Medicare levy variation declaration*, due to low family income
- claimed the tax-free threshold with earnings of:
 - \$863 or more if paid weekly
 - \$1,726 or more if paid fortnightly
 - \$3,739.67 or more if paid monthly, or
 - \$11,219 or more if paid quarterly.

Where a payee has not claimed the tax-free threshold, the SFSS component is calculated on earnings of:

- \$546 or more if paid weekly
- \$1,092 or more if paid fortnightly
- \$2,366 or more if paid monthly, or
- \$7,098 or more if paid quarterly.

The HELP and SFSS components are to be withheld from all earnings, including taxable allowances, bonuses and commissions.

- ❗ Do not withhold any amount for HELP or SFSS from lump sum termination payments.

USING FORMULAS

Withholding amounts for payees who have both an accumulated HELP debt and FS debt can be expressed in a mathematical form. You will need to use the coefficients on page 3 and the formulas and methods specified in the *PAYG withholding – Statement of formulas for calculating amounts to be withheld* (NAT 1004). A copy of this schedule is available from www.ato.gov.au

ROUNDING OF WITHHOLDING AMOUNTS

Withholding amounts calculated as a result of applying the formulas should be rounded to the nearest dollar. Values ending in 50 cents are rounded to the next higher dollar. Do this rounding directly – that is, do not make a preliminary rounding to the nearest cent.

ACCOUNTING SOFTWARE

Software written in accordance with the formulas should be tested for accuracy against the sample data provided on the following pages. You should only use such software if it produces the exact amounts shown in the tables.

WITHHOLDING AMOUNTS FOR LOW INCOME PAYEES

Withholding amounts have been adjusted to allow payees who are eligible for the low income tax offset (LITO) to receive half of their entitlement through decreased withholding. If the payee is eligible, they will receive the balance of their entitlement when they lodge their tax return.

From 1 July 2010, the maximum amount of LITO will increase from \$1,350 to \$1,500.

COEFFICIENTS FOR CALCULATING WEEKLY WITHHOLDING AMOUNTS INCORPORATING HELP AND SFSS COMPONENTS

The coefficients stated below should be used in accordance with the method explained in the *PAYG withholding – Statement of formulas for calculating amounts to be withheld* (NAT 1004). These formulas are effective for payments made on or after 1 July 2010.

! If two payees are taxed using a particular scale – for example, Scale 2 – but only one of them has an accumulated HELP debt and an accumulated SFSS debt, you will need to set up two separate scales in your payroll system. One scale will need to incorporate the HELP and SFSS components and the other won't. For example, name one 'Scale 2' and the other 'Scale 22'. The HELP and SFSS components do not apply where the payee has not provided a tax file number.
